Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 4-11 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 5, is "the pressure sensor" (lines 1-2) really lowered below the level of *that same* "pressure sensor" (first occurrence, line 3)? Also, "the other point in time" lacks antecedent basis.

As to claim 4, "the other point in time" lacks antecedent basis.

There is an unnumbered claim, which likely should be labeled claim 22 in any subsequent amendment.

Claim 23 is non-elected, as it's directed to a system for "controlling" (line 2, claim 23) a pump. Note that claim 23 may have been grouped with non-elected Group IV, a system to control a pump, in contrast with Group I, whose correct pressure value may only be used as a display.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bowne employ a level sensor 60 to control a pump, but the sensor signal is not corrected as called for in claims 1 and 14. Also, the pump is not "submersible" as called for in claims 1 and 14.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert R. Raevis whose telephone number is 571-272-2204.
